Due to logistical and COVID issues plus the high freight costs, we have had difficulties distributing donated tools and have been stockpiling them. The best way to get donated tools to those who need them most will be for KMS Tools to sell some of the donated tools that are hardest to ship and use the funds to ship other donated tools to those in need. The Tools For The World tools that we are selling will be identified as such and 100% of the proceeds will be used for Tools for the World. Thank you for your generous donations. Check www.kmstools.com/blog/category/whats-happening-at-kms-tools/tools-for-the-world/ on our website to see how your donations have helped people around the world.
