

1 HP Dust Collector (MI-11150)

The MI-11150 mobile dust collector comes standard with a 1 micron canister that filters ultra-fine dust from particle board, MDF, most plastics, as well as cedar and other wood. It also has built-in swivel-style casters, so it can be positioned close to your table saw or sander to collect dust at the source. For smaller shops with one or two pieces of machinery, the MI-11150 provides both efficient dust collection and excellent filtration.
