

1.5 HP Dust Collector w/Canister Filter (MI-11250)

Featuring a 1.5 HP motor and 1 micron canister that filters ultra-fine dust, Magnum Industrial's MI-11250 dust collector can provide centralized dust collection for a small shop. Or take advantage of this collector's mobility: It has four swivel-style casters and can be positioned near your machinery to collect dust at its source.

**1,280 CFM
Dust Collector
with Ultra-Fine
Canister
Filter**

Features:

- Impeller shaft designed with high-quality bearings for continuous duty
- Fully enclosed continuous-duty 110/220 volt 1.5 HP motor draws 14/7 Amps
- 1 micron filter canister traps ultra-fine particles including dust from particle board, MDF, cedar and other woods, and most plastics
- Canister filter with built-in lever shaker makes cleaning easy
- Clear plastic bottom bag makes keeping tabs on dust levels simple
- Quick-release metal straps secure bags and allow quick bag changes
- Built-in swivel-style casters deliver excellent mobility
- Safety switch with key provides added security

Anti-Spark Impeller

Specifications:

Motor:	1.5 HP, 110/220V, 1 PH, 14/7A	Filter area:	80 sq-ft
Inlet diameter:	1" x 6" (152 mm) or 2" x 4" (102 mm)	Bag diameter:	20" (508 mm)
Airflow capacity:	1,280 CFM	Bag capacity:	42 gal. (190 L)
Impeller diameter:	13" (330 mm)	Static pressure:	9" of water (without bag)
Sound level:	80 dBA	Weight:	130 lbs (59 kg)
