

Benchtop Wet & Dry Grinder/Sharpener - MI-15100

Sharpen, grind and hone precise edges with the combination benchtop grinder/sharpener from Magnum Industrial. It's made for the home, garage or workshop and allows you to quickly and accurately sharpen knives, woodturning chisels, hand planes and more. This benchtop grinder/sharpener is equipped with two wheels: a vertically mounted grinding wheel and a horizontal whetstone, along with a reservoir and drain hose. The grinding wheel is 2" wide and designed for roughing out edges. The 8" whetstone spins at 400 rpm, ideal for fine honing.

Features

- One benchtop unit delivers both wet and dry sharpening
- Whetstone with built-in water reservoir and drain hose makes wet sharpening convenient and easy
- Grinding wheel features safety shield and wide 2" work area for versatility
- Adjustable tool rests for precise, repeatable and consistent results
