

## 6" Bench Grinder (MI-15220)

Built to last and loaded with features like precision-ground forged-steel shafts, high-speed bearings and a rugged double-insulated motor, the Magnum Industrial MI-15220 6" Bench Grinder is a workshop staple. It's rated for heavy-duty applications, so you know it's tough enough to handle a mix of metal grinding, deburring and shaping projects. It also comes equipped with a gooseneck work light, coarse and medium wheels, and safety features including eye shields and spark deflectors.

- Double-insulated motor with copper windings powers through a mix of projects
- Adjustable tool rests add versatility
- Gooseneck work light illuminates work area
- Onboard eye shields and spark deflectors enhance operator safety
- Includes medium and coarse grinding wheels
