

10" Cabinet Saw with Router Table – MI-51180

Our premier saw package for hobbyists and small shops. Equipped with a true 1.75 HP motor, the MI-51180 is among the most powerful 110-volt cabinet saws available. And it arrives prewired for 110 volts - no rewiring necessary. The saw features a router table extension wing and deluxe rip fence assembly, as well as base-mounted trunnions for stable, vibration-free operation. Its trunnion guides are silicone-coated for smooth action when raising and lowering the blade, a forged one-piece blade arbor limits runout, helping to make this saw both durable and precise. For even more power, it converts to 220 volts if more torque is required further adding to the MI-51180's versatility.

Features

- A true 1.75 HP motor is fully enclosed
- Prewired for 110 volts—and converts to 220 volts
- Router-plate ready with included router table extension wing (insert sold separately)
- Self-aligning T-square fence reduces binding
- Blade changes are safe and easy with extra-large table insert and built-in arbor lock
- Upgraded dust collection design is super efficient
- Safety features include a knee-knock power switch, anti-kickback removable riving knife

Optional Accessories (sold separately)

- MI-52100 OVERARM BLADE GUARD (A)
- MI-99005 TENON JIG (B)
- MI-99511 ZERO CLEARANCE INSERT (C)
- MI-99540 PHENOLIC ROUTER PLATE (D)
- MI-99541 ALUMINUM ROUTER PLATE (E)
- MI-99535 DELUXE ROUTER TABLE FENCE (F)
- MI-42100 ROUTER LIFT (G)

Specifications

Motor:	1.75 HP, 115V / 230V, 1 Phase*
Blade diameter: (saw blade not included)	10" (254 mm)
Arbor diameter:	5/8" (16 mm)
Arbor speed:	4,200 RPM
Maximum cutting depth at 45°:	2-1/8" (77 mm)
Maximum cutting depth at 90°:	3-1/8" (79 mm)
Max cut to right of blade with use of fence:	31"
Maximum dado cut:	13/16" (20 mm)
Dust port diameter:	4" (102 mm)
Table height:	34" (862 mm)
Table size:	27" x 20" (686 mm x 512 mm)
Table with extensions:	27" x 40" (686 mm x 1,020 mm)
Net weight:	313 lbs (142 kg)

*Motor is prewired for 115V
