

4" Portable Metal Cutting Band Saw (MI-93050)

For metal cutting projects in the shop or on the go, the Magnum Industrial MI-93050 4" portable band saw is a steady, reliable choice. It features a cast aluminum design that's light and compact, and its onboard vise makes setup fast and easy. Equipped with a 1/2 hp motor, this portable band saw can cut solid rod, angle iron, tubing and more. What's more, it locks into vertical position, so you can cut hand-fed curves and detailed patterns on the included worktable.

**Portable
Benchtop
Band Saw**

Features:

- Compact, portable cast aluminum design fits on a benchtop or transports to jobsites
- 1/2 HP motor delivers clean, precise cuts in solid rods, plates, bars, angle iron, and tubing
- Cuts metals hard and soft—from steel and cast iron to aluminum and brass
- Cutting head swivels for bevel cuts up to 45 degrees and locks in vertical position
- Onboard tray collects metal chips
- Easy-to-use vise secures materials
- Locks in vertical position with included work table for detailed hand-fed, scroll cutting
- Includes blade, vise, and vertical worktable
