

Wood Lathe Safety Guard — MI-99265

Make wood turning safer with the Magnum Industrial Wood Lathe Safety Guard. It protects against flying wood chips and splinters, broken tools, dust and more. The guard fits most lathes (some drilling may be required) and its adjustable column makes it easy to find the right height. Also convenient are the guard's two Plexiglass shields that flip up and out of the way when you need to access the bed.

Features

- Protects against flying wood chips and splinters, broken tools, dust and more
- Adjusts to fit most wood turning lathes
- Guard shields flip up for easy access to lathe
- Doesn't interfere with turning tools
- Installs easily on the lathe bed
